Gratitude Web App Specifics:

1. Online Social Networking Service
   a. We want to create a public social forum for individuals to engage in the practice of gratitude.
   b. We want members to join
      i. The member will create a member profile.
         1. Info on member profile
            a. Name, DOB, City, State, and Zip Code
      ii. To spread membership, if a current member wishes to thank someone who is not currently a member, we would like for the app to generate a generic email promoting membership.
   c. PROFILE
      i. Each member has a PROFILE PAGE
      ii. On the profile page each member can:
         1. View posts from others on your personal profile page
         2. Create posts to post on others’ pages
         3. Monitor personal posting activity
         4. Manage privacy settings
         5. You CANNOT post on your own page, only others are allowed to post on your page. I.e. others create your personal page posts. Your profile page is procured by the community.
            a. For those who don’t have many friends who never get posts, we can send “thank you” posts to post on their profile page.
               i. Generated from : List one good thing that you did for someone else today
   d. COMMUNITY (i.e. Newfeed)
      i. Consists of posts from members thanking other members
         1. The posts only identify the individual being thanked. I.e. the person who posts the thank you message is anonymous.
         2. BUT if the person who is receiving the thank you message doesn’t want it shared in the community then they can remove it (“humble” or “humility” button).
      ii. Also consists of general thank you posts. I.e. to the anonymous person who “held the door for me. “
      iii. You can “Like” posts
      iv. You can “share credit”
   e. POSTS
      i. Each post to an individual will appear on the individual’s profile page AND will appear in the community.
      ii. The individual receiving has the opportunity to “Like” this message within the community.
      iii. The individual receiving a thank you post also has the ability to rate the post on a scale from 1 to 5 starts.
1. The star rating is ONLY for use by member receiving the thank you post and CANNOT be viewed by the individual who sent the thank you post.

f. BOOST BUTTON
   i. When a member is having a bad day or needs a “boost” they can hit a “boost button” where an accumulation of their highest rated posts will be available for them to scroll through (i.e. three of their 5 star rated posts)
