

SCIP SUCCESS STORY

I owe a tremendous thank you to the South Carolina Internship Program for their generous grant, which ... has alleviated my financial concerns and stress, allowing me to dedicate myself entirely to my full-time position in Dr. Hollis's neuroscience research lab.

The University of South Carolina is offering **\$3,000** supplements for qualified students who work internships and co-ops in Spring 2025 that support high-demand industries in the State of South Carolina. **The deadline to apply is March 6, 2025!**

Career Center
UNIVERSITY OF SOUTH CAROLINA

RESOURCE SPOTLIGHT

Big Interview is an online resource that help students prepare for interviews. They have:

Virtual mock interviews for most industries.

A database of questions and tips for answering them.

Video training that covers the difference phases of getting a job.

Students can access Big Interview with their USC ID, the link is sc.biginterview.com

When preparing for a job interview, it's not enough to only read advice - you need to put that advice into practice! That's why Big Interview isn't just a training course. You'll also get hands-on practice with mock interviews tailored to your specific major or area of interest.

Many of you frequently request information about where our students are heading after graduation and the exciting internships and co-op opportunities they've taken on. While we're always happy to share this information, we often face challenges due to incomplete data.

To better serve you and our students, we kindly ask for your assistance in encouraging students to:

- Seniors: Complete the graduation survey to share their post-graduation plans.
- Underclassmen: Log their internships and co-op experiences in Handshake under the "Experience" section.

This data is vital for us to provide accurate insights and to showcase the success of our students in the Molinaroli College of Engineering and Computing. Many of you are already helping by reminding and nudging students during your interactions, and for that, we are deeply grateful.

Together, we can ensure we have the information needed to celebrate and support our students' achievements. Thank you for your continued collaboration!
