Homework 3. CSS, Images, Lists

CSCE 102-General Applications Programing

Sections 10,11,12 Spring 2020

Due Wednesday Feb 12th, 2020

Directions. Please answer each question to the best of your ability. This assignment is to be completed individually.

1. What role does the **alt** attribute play in displaying images?

2. What role does the **target** attribute play executing hyperlinks?

3. Complete the code snippet to configure the **<u>nested unordered lists</u>** below.

- South Carolina
  - Lexington
  - Columbia
    - Finlay Park
    - Three Rivers Park
    - Riverfront Park
  - Rockhill
- North Carolina

```
<ul>
<li> South Carolina
```

4. Write the CSS Declaration that configures a class <u>books</u> with green text, underlined and a large font.

5. Write the code snippet that creates an image link to All_Index.html when you click on Friends.jpg.
