CSCE 274 Fall 2022

Homework 4 (3% over the final grade)

Assigned: November 21, 2022
Due: December 2, 2022

Instructions

Please read carefully the following questions and make sure to give the answers asked for. Don't give a beautiful answer to the wrong question. If you have any doubts, please let me know.

The document containing the answers should be uploaded on the CSE Moodle (http://dropbox.cse.sc.edu) and should have the following characteristics:

1. Header with the code of the class, the semester and year, the homework number, and your name.
   e.g., CSCE 274 Fall 2022 – Homework 4 – Ibrahim Salman
2. Your answers, clearly identifying the answered assignments.
3. The name of the file should be in the following format:
   csce274_fall2022_<hw#>_<last_name>.pdf
   e.g., csce274_fall2022_hw4_salman.pdf

Questions

Question 1. Provide a list of the major challenges you encountered in the projects of this course, together with a brief explanation. If possible, provide suggestions for improvements or solutions to the problems.

Question 2. Provide a list of the major challenges you encountered in the homework/labs of this course, together with a brief explanation. If possible, provide suggestions for improvements or solutions to the problems.

Question 3. What were the challenges you encountered with respect to the lectures? Was the order helpful, or should some lectures have been before others?

Question 4. Suggest one topic in robotics you would have liked to be covered in more detail.
