

CSCE 274 Fall 2022

Lab 3 - optional (3% over the final grade)

Assigned: October 09, 2022

Due: October 17, 2022

Instructions

Read the following questions carefully and make sure to give the answers asked for. Don't give a beautiful answer to the wrong question. If you have any doubts, please let me know.

This is an optional lab to make up for lab 2. You have to finish lab 2, then answer the questions below. **Your submission for this lab is only the answer to the questions.**

Question

1. The URL to your GitHub classroom repo?
2. The name of your docker container used? Is it different from lab 1?
3. How many nodes did you create for this lab? List them.
4. Did any of the new nodes publish to the lab1 node, why?
5. Which topics are being subscribed to by the lab2 nodes?
6. Which topics are being published by the lab2 nodes?
7. What message type did the topics above have?
8. What is lab2 doing? What were the inputs/outputs you used?
