
CSCE574 – Robotics
Spring 2014 – Homework 3

Assigned: Jan 23

Due: Jan 28

name

Execute the Bug2 algorithm on the environment below. **Draw** the path followed by the robot. Be neat, especially if the path overlaps itself, so that your answer is unambiguous. **Label** the hit points as H_1, H_2, \dots and the leave points as L_1, L_2, \dots
