Agenda for CSCE 531 class meeting of 2020-04-23 (Online)

1. **Remember to record the session!**
2. Check email to see whether students are emailing reports of trouble.
3. Ask student to use chat for questions and mute audio and video on their side, to limit clutter and bandwidth.
4. Virtual Office Hours. Many of you dropped in on Monday. Thank you!
5. Ask graduate students to send in proposed choices for reports or presentations. Twenty-two (22) students have made their choice. (Read their names.) There are 31 graduate students in the class. Please make a choice. Please also contact me if you choose to do PR4 instead. The For presentations, students are encouraged to submit a pptx file with voiceover, if dropbox space allows; this will take the place of an in-person presentation. You may also contact me about a presentation time. Incomplete implementations of PR4 will be accepted, if they compile, work partially, and include a written description of the challenges encountered in the implementation.
6. Note that agendas for each class meeting are linked to the corresponding class log entry on the course website. Direct link: https://cse.sc.edu/~mgv/csce531sp20/log/index.html.
7. Students will do course evaluations online (Blackboard). Please try to do this before Thursday, or at least make sure that you can get to the course survey tool in Blackboard; the tool is in the same area as Blackboard Collaborate Ultra.
8. Comment on submission format for PR2b. Students are allowed to submit PR2b late.
9. The final will be a take-home. A preliminary version is on the departmental dropbox. Discuss it and ask for comments. A question on functions is likely to be added.
10. Make sure that the students are fine and wait for questions before ending the session.
