Do the following exercises using Hugin:
Exercise 9.11(ii) (The oil wildcatter problem)
Exercise 9.5 (Decision version of horse farm; note that there are many decisions; make
sure to choose an order for them.)

Please bring your solution with you on your laptop (for safety) and on a thumb drive, so
that I can copy it and run it on my laptop.

Also bring your best copy of all your Hugin homework assignments. If you had errors in
an already submitted version, correct it and bring the corrected version.

Each student has a 20-minute appointment during the regular exam time for this course,
May 4, 2009 in 2A21, to discuss the homework submitted and the take-home exercises.

9:00-9:20: Jonathan Chandler
9:20-9:40: Jimmy Cleveland
9:40-10:00: Benjamin Fine

10:00-10:20: Everett Hite
10:20-10:40: Paul Sanderson
10:40-11:00: Nicholas Stiffler

11:00-11:20: Adam Wong
