Chapter 16 CSS Reading and Class Guide

- Make sure you know what each of these are
- “e.g.:” means list/know some examples
- Use “internal stylesheets” in this class (CSS in a style element in the head)

General form:

<head>
<!-- other head stuff -->
<style>

</style>
</head>
color

background-color

text-indent

text-align

border

border-bottom
